

Spherical DCM ROIs overlaid on sub-03 T1 anatomy

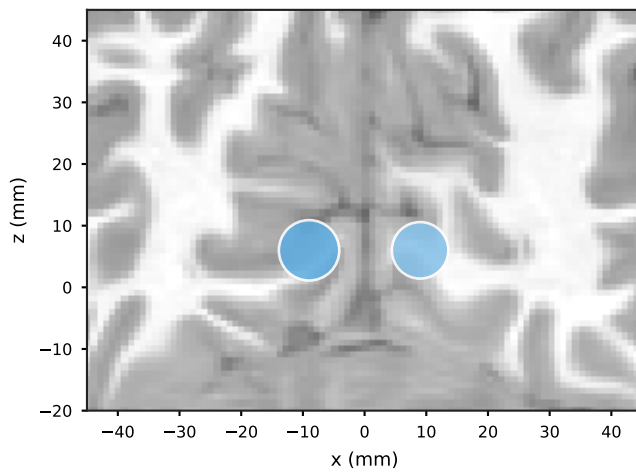

Primary motor cortex (M1) - coronal (y=-20)

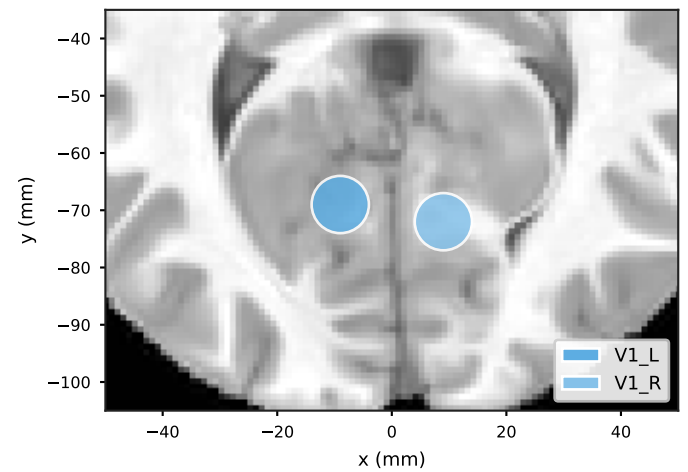

Primary motor cortex (M1) - axial (z=49)

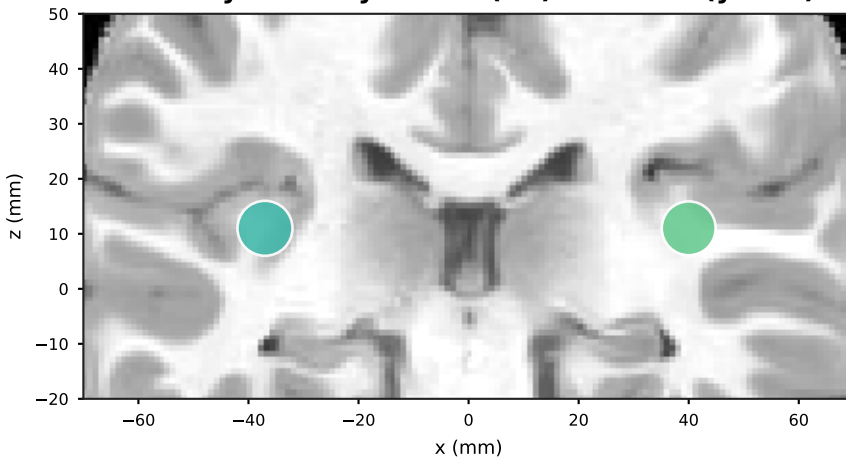

Primary visual cortex (V1) - coronal (y=-70)

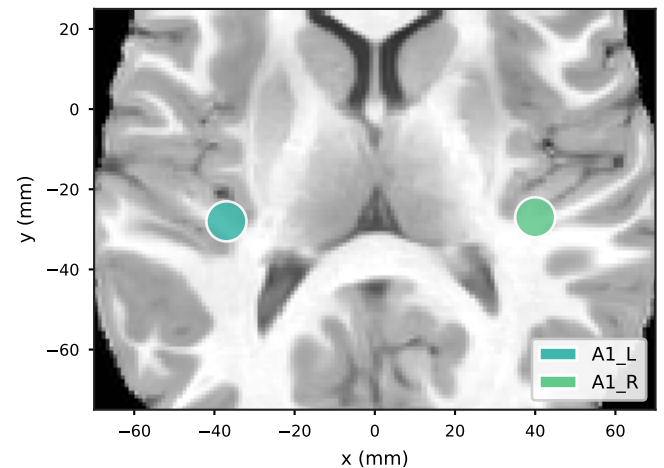

Primary visual cortex (V1) - axial (z=6)

Primary auditory cortex (A1) - coronal (y=-28)

Primary auditory cortex (A1) - axial (z=11)

T1 image: sub-03, MNIPediatricAsym cohort-3 space. ROI masks: 5-mm spheres used for DCM time-series extraction.
